COURSE PLAN METHODOLOGY:

Kolbe Academy has worked diligently to create the best possible course plans with the home schooling family in mind. Remember, however, that our program is intended to be flexible. Per the principle of subsidiarity, these course plans are a **suggested** course of study. As the teacher, you should adapt and modify these course plans to meet the individual learning needs of your child. **Do not feel obligated to follow these course plans exactly.**

Daily Geography 1 Teacher Edition is represented by the abbreviation **DG1**. **It is of extreme importance that the parent obtains the teacher's edition because all of the instructional information is contained in it.** The student book is a workbook only. *Daily Geography 1* Student Book is represented by **DG1SB**. Each weekly assignment is summarized in the first rows of the week's daily course plan along with the goals and notes for that week. The specific daily assignments are outlined in the following lines indicated by the **DAY 1** and **DAY 2**. Parent daily guidelines are given to the left of the student assignments. Most families will use Days 1 and 2 as a Monday/Wednesday or Tuesday/Thursday schooling schedule. This leaves Friday open for review, catch-up, field trips, or other activities. A family's schedule can and should vary as needed. **Please note that although the book spreads each lesson into five days, in most cases we have condensed them into two days. You may cover the material in four days instead of two, if you like. Also, in order to complete the book in four nine-week quarters, it is necessary to do two lessons in one week of each quarter. The extra lesson is shown in the eighth week of each quarter, but you may want to cover two weeks at any time in the quarter. The ninth week is review and exam week, so if necessary, you can cover one lesson at the beginning of the ninth week.**

A weekly grade book is included at the end of the week's course plan *as a convenience*. It includes a cumulative list of written assignments from the week's course plan with point values given as a suggestion. Space for additional assignments, if needed, is included. **Kolbe Academy does not require that you keep record of all student work.** If you intend to report your child's work to Kolbe Academy for an official report card, only one sample of written and graded work is required per quarter for each course along with a report card submission. Parents should use the grade book only as a help to their home schooling and not as hindrance. Point values and weighting are suggested for *convenience* and may be modified, dropped completely, or added to as the parent deems fit. Please consult the welcome packet for a full tutorial on using the grade book.

This geography course contains 36 weeks; we have broken into four 8-week quarters. Week 9 is considered review and examination week. Your student may not need all of Week 9 for review and exam. You can use this time to catch up in other courses if necessary, or to move on if you prefer.

Finally, begin every class with a prayer. This is a good way to help the child memorize new prayers. Repeat the same ones every day until they are known. Be sure to explain the meanings of the prayers. Repetition in all areas of study is most beneficial.

WEEK 1					
Books	Weekly Breakdown	Goals and Notes for the Week			
DG1	Page 1-6	What is a Map? DG1, the teacher's edition, should be looked over carefully before beginning to teach the lesson. By reading pages 1-5 you will get a greater appreciation of the series. All of the instructional information is contained in the teacher's edition. Every lesson has a list of vocabulary with which the student should become very familiar. There is a Glossary beginning on page 150 of the teacher's edition, which contains all of the vocabulary words that are introduced in the book.

DAY 1	DG1 Page 6	<input type="checkbox"/>	Carefully read and discuss the first three paragraphs on DG1, page 6 with the student. Impress the importance of the meaning of a map. Have the student turn to page 73 and discuss the map. It is suggested that the student use a bookmark in the section with the maps for easy access to them. Help the student complete the work on page 1.
