COURSE TEXTS & RESOURCES ABBREVIATIONS AND DETAILS:

Each week of the course plan is broken down into four components. Each of the four components is abbreviated using the following key words:

PREGO. The student text provides the core material for the student to learn the vocabulary and grammar used in the beautiful Italian language. Students will be assigned several exercises from this text each week. There are many activities which may appear to need a partner or group to complete. The student should do his best to complete these assigned exercises without a partner.

LAB. The Online Laboratory Manual (language lab) provides the very important pronunciation and conversation portion of this course. It, too, has the added benefit of self-grading so that students receive feedback immediately for their work. If the Online Laboratory Manual has already been purchased, it can be registered and accessed at the Student Workstation located at <http://www.mhcentro.com>. PLEASE SEE THE USER MANUAL ONLINE FOR COMPLETE INSTRUCTIONS ON UTILIZING THIS WEBSITE PRIOR TO REGISTERING YOUR BOOK KEY.

WORK. The Online Workbook provides additional grammatical and vocabulary practice for the student. It has the added benefit of self-grading so that students receive feedback immediately for their work. If the Online Workbook has already been purchased, it can be registered and accessed at the Student Workstation located at <http://www.mhcentro.com>. PLEASE SEE THE USER MANUAL ONLINE FOR COMPLETE INSTRUCTIONS ON UTILIZING THIS WEBSITE PRIOR TO REGISTERING YOUR BOOK KEY.

OLC. The Online Learning Center (OLC) provides many supplemental quizzes and resources to aid the student in testing his abilities as he learns the material. These resources are free to all students and can be found by going to www.mhhe.com/prego8 and clicking on "Student Edition" in the bottom left hand corner of the webpage. PLEASE SEE THE USER MANUAL ONLINE FOR COMPLETE INSTRUCTIONS ON UTILIZING THIS WEBSITE.

COURSE PLAN METHODOLOGY:

- ❖ There is a *User's Manual* located online that you will be able to access with your course plan. At the beginning of the user manual, there is an Online Access Code Release Form. **You will not be able to access any Teacher materials until this form is sent in.** Please note that teacher materials and online access is **only** available to fully enrolled families or students in single course enrollment.
- ❖ Kolbe has provided vocabulary quizzes to be given at the end of every chapter. Students are advised to study the vocabulary located at the beginning and the end of the chapters in order to do well on their vocabulary quizzes.
- ❖ Memorization is the key to learning any language. A diligent student should keep flash cards and devote fifteen to twenty minutes daily to memorization. Emphasis should be placed on repetition and memorization, as these are the primary ways to learn a language. Repetition need not equal drudgery; repetition can take the form of games, contests, etc. This is especially helpful for younger students. At minimum, flashcards are a very useful way for students to learn and study vocabulary words.
- ❖ Pronunciation help for vocabulary words can be found at the Prego! Online Learning Center (OLC): www.mhhe.com/prego8 student edition. Choose the student edition, then chapter, then click on "Parlare da Ricordare" under the More Resources heading. Please see the User's Manual at the end of this course plan for more specific guidance.
- ❖ Students should generally complete the assignment from student text first (indicated by **PREGO** in the course plan). This gives them an introduction to the vocabulary and/or grammatical points before delving into the workbook or laboratory manual. It is suggested that the students complete the exercises assigned as they study the sections of each chapter. Please note that several exercises may suggest working with another student, but most exercises don't actually necessitate working with a group or another individual.
- ❖ Students who have opted to use the Online Workbook, may want to complete those exercises next (indicated by **WORK** in the course plan) to continue grammar and vocabulary work. However, some students may want to break up the grammar drill and do the Online Laboratory assignments first (indicated by **LAB** in the course plan).
- ❖ It is important to note that throughout the Laboratory Manual, the listening comprehension sections are written at a slightly higher level than a student's current comprehension skills. The purpose of this is to build the student's global listening comprehension skills and to increase confidence when speaking Italian in real-life. While this will be initially frustrating for each student, be sure to forewarn students that they are not expected to understand everything that they hear. Instead, the key to acquiring good listening skills should be emphasized: patience and careful attention. Since all students stumble a bit when they first encounter real Italian dialogue, continue to encourage students on their journey.
- ❖ The Online Learning Center assignments (indicated by **OLC** in the course plan), serve as a perfect quiz for students after completing the assignments for the chapter that week. They are automatically graded and are best done after all other assignments for the week have been completed.
- ❖ There are FIVE exams with this course plan. Kolbe's exams will cover those chapters laid out in the lesson plan. If you deviate from the course plan, alter your test to reflect the chapters you covered. Kolbe's exams will primarily cover the grammar concepts presented in the chapter, but the student will be expected to know any vocabulary words that appear on the exam as well. An oral comprehension and dictation

section are included in each of the five exams for this course. The audio for these sections may be downloaded at the following link: www.kolbeforum.org/Italian. Please see the answer keys to the exams for more instruction.

- ❖ English grammar sources should be used when necessary to clarify grammatical points. An Italian dictionary may prove useful to the student to have as a reference when needed. Any dictionary will do. For grading help and information, parents*** should review Parts III and IV of the Online Access User's Manual located. ***Teacher access is only available to fully enrolled families or students in single course enrollment

❖ **ASSIGNMENTS:**

- 1) Each week the lesson should be read and studied carefully within the student text.
- 2) The "Other Assignments" that appear toward the end of completion of a chapter are especially important for bringing all the grammatical concepts together, and will enhance the course so that student will learn more about the Italian culture.

<p>Pronunciation Rules</p> <p>The Italian language is a fairly easy romance language in terms of pronunciation. There are not many exceptions to rules in pronunciation, so students can feel confident in pronouncing words even if they have never seen the word before. It is important to listen to the language as often as possible to hear how certain syllables within words are accented. Students are encouraged to use the Online Laboratory Manual to listen to the Italian language and test comprehension. Students can also find the pronunciation of all the vocabulary words for the chapter at the Online Learning Center: www.mhhe.com/prego8. Click on Student Edition, then the chapter, then "Parlare da Ricordare" under More Resources. See pages 9-10 in the student text for rules on pronunciation.</p>
