**COURSE PLAN METHODOLOGY:**

Kolbe Academy has worked diligently to create the best possible course plans with the home schooling family in mind. Remember, however, that our program is intended to be flexible. Per the principle of subsidiarity, these course plans are a suggested course of study. As the teacher, you should adapt and modify them to meet the individual learning needs of your child. **Do not feel obligated to follow these course plans exactly.**

In the course plans that follow, *Bearers of Freedom* student textbook is represented by the abbreviation BOF. Each weekly assignment is summarized in the first rows of the week’s daily course plan along with the goals and notes for that week. The specific daily assignments for the student are outlined in the following lines indicated by the DAY 1, DAY 2, DAY 3, and DAY 4 abbreviations. Parent daily guidelines are given to the right of the student assignments. This outline can be altered; a family’s schedule can and should vary as needed.

A weekly grade book is included at the end of the week’s course plan as a convenience. Parents should use the grade book only as a help to their home schooling and not as a hindrance. It includes a cumulative list of written assignments from the week’s course plan as well as space for additional assignments, if needed. **Kolbe Academy does not require that you keep record of all student work.** If you intend to report your student’s work to Kolbe Academy for an official record, only one sample of written and graded work is required per quarter per course along with the signed and filled out report card. The weighting suggestion in the end of quarter grade book is there for convenience and may be modified as the parent deems fit. Please consult the welcome packet for a full tutorial on using the grade book.

This history course contains 36 weeks broken into four 9-week quarters. Week 8 is a lighter week, and includes a few days for review. You should use the review days as time to catch up if necessary and then go over the subject matter. **If you intend to use the tests provided, look them over before teaching the subjects and make sure you review the material in the tests throughout the quarter.**

Some children have a difficult time doing written exams, but it is important for them to learn how to take them. If your fifth grader does poorly on them, give them to him orally a couple of days after he has taken them and average the grades.

Finally, begin every class with a prayer. This is a good way to help the child memorize new prayers. Repeat the same ones every day until they are known. Be sure to explain the meanings of the prayers. Repetition in all areas of study is most beneficial.

<td>Students will become familiar with the format of the book and read about the first voyage to America. Before going through the text of a chapter, check out the activities, etc. at the end of the chapter and the end of the unit. It is recommended that you have a globe to use in conjunction with the text. Point out the relevant areas as you encounter them. A map of the ancient world would also be helpful. Throughout the book, there is vocabulary work at the end of each chapter. The words should be discussed before the student reads the material.</td>
